

Vetocox[®]

Revolutionary CLEAN UP anticoccidial

Composition :
Diclazuril 0.5 %

Highlights :

- Highly potent molecule with a unique chemical structure
- Active against the stages of the parasite found at the end of the cycle
- Reduces oocyst shedding
- It is effective against second generation schizonts of Eimeria
- It inhibits the sporulation of oocyst

Usage :
200 gm/ton of feed
(1 ppm of Diclox)

Presentation :
25 KG Bag
