

Virginiamycin AGP with Zero day withdrawal & best against Clostridium

VMYCYNTM 50

COMPOSITION :

Virginiamycin 50% w/w

VMYCYN 50 ensures reduced intestinal weight, reduced intestinal thickness & increased villi length & number for improved nutrient absorption & utilization

BENEFITS :

- Gut acting
- No absorption from gut
- No withdrawal period
- Virginiamycin not used as drug for human
- Reducing bacterial heat production
- Reducing overall gross heat production
- Reducing energy spent on heat production
- Increasing the beneficial use of energy for metabolic processes

RECOMMENDED MIXING RATES :

Broilers & Layers (Chick/Grower/Adult) :

20 gm/ton of feed

Breeders (Chick/Grower/Adult) :

40 gm/ton of feed

Versatile **Growth Promoter & Performance Enhancer**
for **Maximum Benefits**
